

low voltage

MC12 WLV

The MC12 WLV is a twelve-channel fixed-speed chain-hoist controller with wireless pendant. This unique solution helps to control hoist without any control cable. It incorporates with any low voltage control chain hoists. Four 20A C-type miniature circuit breakers (MCB) provide power and protection for the group of each four hoist supplies.

FEATURES

- Wireless pendant or Local control
- 50A TwistLock power input
- Socapex 7pin LV hoist connectors
- Phase presence and voltage status indicators
- 4 x 3pole 20A breaker per 4 hoists
- Dual Channel Emergency stop
- Safety key on/off switch
- Up/down direction switches + indicators
- Rack mounted or Truss Rig (One cable up)

OPTIONAL FEATURES

- Loadcell module for precise load reading

POWER SUPPLY

- 208V, 60Hz

OPERATIONG TEMPERATURE

- 0-55 °C (32-132 °F)

CONTROL CONNECTIONS

- Neutrik 7pin for extra Emergency stop and digital remote

DIMENSIONS

- 9U 19", 483 x 400 x 367 mm, 30kg
